

OLD BADSHAHI BRIDGE, VILLAGE UCHASIWAN, KARNAL

Old Badshahi Bridge 1540-44 AD

Structure

This Bridge was erected on the directions of Sher Shah Suri to facilitate safe and easy passage for the travellers. This is a stone bridge having three arches which are structurally sound. The piers of the arches at the both ends are strengthened by buttresses with marked positions indicated by four small *minars* with domical tops.
